A & W To Join Easter Telethon

The A & W restaurant at 210 So. Boulder Hwy. in Henderson, has announced their participation in the 1976 National Easter Seal Telethon for the month of March.

The traditional 20 - hour national telethon is held to raise money to help crippled children and adults. It is scheduled for March 27 - 28 and will be broadcase from Hollywood, California through at least 60 local television stations, covering almost every major population center in the country.

The National Easter Seal Society has granted A & W International, Inc. an exclusive national tie - in until 1980, so that A & W will be the only fast - service food chain officially organized to collect contributions for the telethon.

Last year's Easter Seal Telethon raised over 13 million and the goal is even higher in 1976 with A & W's aggressive involvement.

The scope of Henderson's A & W participation in the 1976 Easter Seal campaign will take several forms. They will be contributing a nickel to Easter Seal for every large mug of Root Beet sold during the month of March.

Additionally, the familiar A & W Root Beer mug will be displayed so that customers may deposit their Easter Seal contributions while visiting the restaurant.

During the month, A & W will be handing out free "Great Root Beer Hocus - Pocus Magic Kits." They are simple, self - contained kits children will be able to use in producing their own fund - raising magic shows for Easter Seal in their neighborhoods.

Money collected by the A & W unit during the fund - raising campaign will be delivered in person to T.V. station while the telethon is being broadcast. The child raising the most money with his Magic Show will also be featured on the local telethon during the 20 - hour period.

Last year, the National Easter Seal Society provided services to more than 260,000 handicapped children and adults. They helped them learn to walk, to talk, and to reuse injured limbs and rejoin the mainstream of society.

In addition, using funds raised largely by the telethon, they worked with university researchers, communities, governmental agencies and other voluntary organizations to fulfill the needs of the nation's handicapped.

"But I only asked for a little map of Texas!
